12<sup>th</sup> April, 2020.

# Me As The Parliamentarian Of People's Republic Of Bangladesh

It's the prime Institute of any country to make all the legislatives with proper decisions and to work will the possible challenges with determined soul in order to take the country at the peak of success. And as a member of this institution, most of the times drama and unethical decisions are the part and parcel of this institution because It's constitution is flexible and every year the new amendments are being done for the positive changes of the country but It's a matter of sorrow that every parliamentarian making the rules and regulations for the country but they themselves are not bound to follow at all and that's why their reflected image of quality is totally crystal in front of all the people. In the eye of me it's quite logical that to make the destruction of a country the destruction of education is enough and at the same time the lack of proper Justice also the equivalent reason behind that can also bring the destruction of any country. And from the religious perception that's also clearly mentioned in sura Al -Mayidah in the verses number eight that "O believers! Stand-up firmly by the Commandments of Allah, bearing witness with justice and let not the enmity of any people incite you that you should not do justice. Do justice that is nearer to piety and fear Allah, undoubtedly, Allah is aware of your doings" (Al-Quran)

The needy people are being killed in the cause of drug addiction but the political leaders of this parliament those who are strongly involved in the "Drug Business" they aren't being taken to custody due to improper Justice. And as a member of this institution I see that more than fifteen times the constitutions of our country has been chanced but that couldn't bring any solutions as no parliamentarians are following that messages and as a best option could be to make the "Holy Quran" as the country's constitution in order to make everyone ethical with the messages of Lord of the whole universe and that "Divine Book" having no doubt as it was said in the second verses of sura Baqarah that -"This is the Book about which there is no doubt, a guidance for those conscious of Allah" (Al-Quran).

If I go for defining democracy then it comes from the first elected president of United States Of America Abraham Lincoln that, "Democracy is by the people, for the people and of the people. But in the country like Bangladesh in the name of democracy the unqualified people are being selected without having the specialist kind of knowledge and from that elected members of parliament the totally blind people are being given the responsibility like " Economical and Health" sectors of the country which is the proper indication of lack of moral values .As a result, the whole nation is going to walk towards the dark cave without known destination and that never can be the reflected image of proper education. Finally, as a member of my institutions I can see that proper initiatives of implementation of Quran as the constitution of

this parliamentary house should be taken to bring the moral changes of the people and the whole country and no one can bring any amendment because It's mentioned in the verses number nine of sura Hizr that- "Assuredly Almighty have revealed the glorious Quran and He Himself is the custodian of it.
